ETHopoly

Sponsor Ranking Trading Game

Gameplay

Users are spawned with 10 ETH at disposal

They can make choices of which companies they want to invest in.

The Market is affected by other users investments.

Top 5 Winners Get airdropped 3D NFT Terriers to their ETH wallet based off the score.

ULTRA - Gold - Silver - Bronze - Reg (5x)
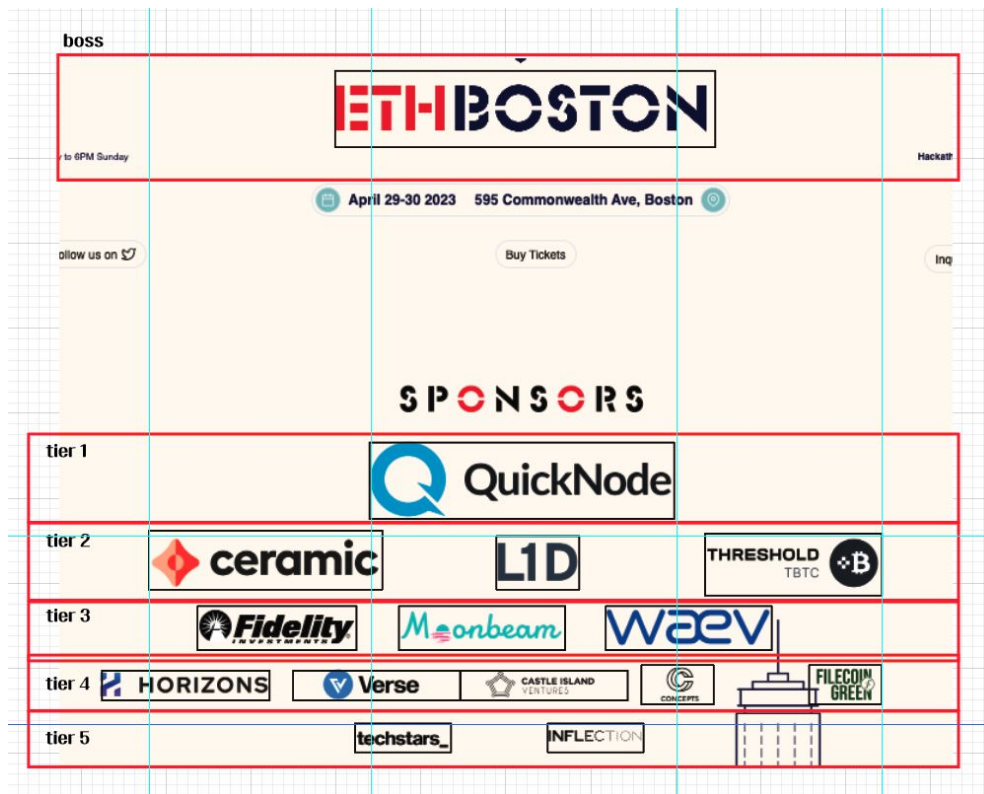

Visual Data

Ranking initial Game Market cap by ad tier.

Tier 1 QuickNode
Tier 2+3 Merge
Tier 4+5 Merge

To setup the value of market cap, we decided not to use 5 tiers because the 2-3 and 4-5 were similar in size just not position.

Metamask to Trade

Dapp browser is used to explore
Ethopoly.bitmatostudio.com

The only information we do collect is the METAMASK wallet for tracking decisions.

Play game.
When user buys and sells shares Market Caps are affected.
The results will be accumulated for 72 hours. Starting at 12:00 pm 4/30/23 - 12:00 pm 5/2/23
Social Experiment

By getting general feedback from users, we can see their decisions affect the market, creating an interesting throughput on data.

This can be used for education, advertising, and market research.
